# Emergency Solutions Grant (ESG) Program Overview

"The Homeless Emergency Assistance and Rapid Transition to Housing (HEARTH) Act of 2009 amended to the McKinney-Vento Homeless Assistance Act, revised the Emergency Shelter Grants Program and renamed it to the Emergency Solutions Grants (ESG) program. The ESG Interim Rule took effect on January 4, 2012. The change in the program name reflects the change in focus from addressing the needs of homeless people in emergency or transitional shelters to assisting people to quickly regain stability in permanent housing after experiencing a housing crisis and/or homelessness".

The program provides funding to:

- Engage homeless individuals and families living on the street;
- Improve the number and quality of emergency shelters for homeless individuals and families;
- Help operate these shelters;
- Provide essential services to shelter residents;
- Rapidly re-house homeless individuals and families; and
- Prevent families and individuals from becoming homeless.

Victim Service Agencies will be required to submit quarterly performance outcomes from an internal database.

Is your agency a Victim Service Provider as defined by 24 CFR 576.2: "A private nonprofit organization whose primary mission is to provide services to victims of domestic violence, dating violence, a sexual assault, or stalking. ## **3.** Match Documentation ATTACHMENT REQUIRED for ALL APPLICANTS IN ORDER TO MEET THRESHOLD CRITERIA

Agencies must be able to document committed and/or pending match sources in order to meet threshold requirements. This requirement applies to all match sources including an agency's own operating funds as a source of match. Emergency Solutions

Grants require a 1:1 match with sources that meet match requirements identified in ESG interim regulations (links provided above). Budget and match tables must be completed later in the application with documentation as outlined below in order to meet threshold criteria:

• **Committed match sources** - signed grant agreements, award letters/notifications or letters of commitment covering the match to be received for the project requesting funds and expended during the operating year of the FY2025 grant if awarded.

If match documentation is not submitted with the application, your project application will not meet threshold and will not be reviewed and scored. Even if your agency is providing match, a letter stating the agency will provide match in the amount equal to the total ESG request must be submitted with a date and signature.

• Pending match sources - written and dated correspondence with pending match source which includes amount being requested (as identified above) and confirmation that the pending match is being requested for the project requesting funds and for expenditure during the operating year of the FY2025 grant if awarded.
