of Care of Stark County

Community Guide for People Facing Homelessness

This guide provides basic information for assisting someone facing homelessness.

FIRST, determine whether there is anywhere safe to stay tonight. Emergency shelter space is limited in Stark County and reserved for people with nowhere else safe and appropriate to stay. Therefore, seek any available safe housing, even if temporary, while connecting to other desired housing assistance. Start by exploring:

1. **Where did you stay last night? Is it safe for you? If so, is there something that would allow you to stay there again tonight?** (food, utility support, etc.) **How long do you think you can stay there?**
2. **As needed: do you have anywhere else that's safe where you can stay tonight or if and when you need to stay somewhere else?** *This includes temporary options with family, friends, and social connections (e.g., faith-based community friends).*

IF NO OTHER SAFE, APPROPRIATE HOUSING OPTIONS TONIGHT

- ***Other single adults and families:*** call Homeless Navigation **330-452-4363**. Intake and assessment is available Monday - Friday 8:30am – 4:00pm on regular business days. After Hours calls transfer to the Stark County Crisis Hotline.
